

## Landscape Architect/Designer

Join a growing business in a growing community! Sargent's Landscape Nursery is a well established landscape design/build firm and garden center in Rochester, MN serving all of Southeastern Minnesota. We serve medium to upper end residential and commercial clientele and are known for our creative solutions and superior products and services. Please see our website for a more comprehensive profile [www.sargentsgardens.com](http://www.sargentsgardens.com).

Landscape Architects and Designers at Sargent's Landscape Nursery are the primary lead on medium to large residential landscape design/build projects. The Architect/Designer applies knowledge of and experience with both plant and construction materials in order to create outdoor spaces which are to the clients' satisfaction, sustainable, well built, and profitable.

### **Duties/Requirements:**

Provide excellent customer communication and service throughout the design/build process. Generate creative, functional, and sustainable solutions with a mind toward environmental sensitivity and landscape management.

Organizational, time management, and communication skills are necessary in order to manage multiple projects and contractors, both internal and external.

Take part in both individual and team educational and promotional activities.

Flexible work schedule in order accomplish necessary tasks during high activity seasons of the landscape industry in S.E. Minnesota.

Ability to prepare profitable estimates/bids for installation work.

### **Education:**

Undergraduate degree in Landscape Architecture or Landscape Design is preferred. Candidates with an associate's degree in Horticulture with a Landscape Design emphasis will also be considered.

### **Experience:**

Experience in the landscape design/build field in which the candidate performed design and project management responsibilities is preferred. Candidates with lesser experience will be considered.

Experience with computer aided drafting (AutoCad or Dynascape) is preferred. Ability to communicate visually via hand drawing is a minimum requirement.

Extensive experience with, and knowledge of plant material is preferred. Basic knowledge is a minimum requirement.

Fundamental landscape installation and construction experience is desirable.

Multi-tasking.

Interpersonal communication skills a must.
